Matthew Ho

(647) 572-3168 | m57ho@uwaterloo.ca | linkedin.com/in/matthew-ho572 | github.com/MatthewHo57

SUMMARY OF QUALIFICATIONS

Languages: Java, Python (pandas, Matplotlib), SQL, VBA, R
Tools: Microsoft Office, Visual Studio, Power BI, Git, FME, Jupyter Notebooks, RStudio, Salesforce

EXPERIENCE

The Regional Municipality of York - Corporate Services - *Data, Analytics and Solutions (GIS) Analyst*
SEPTEMBER 2023 - DECEMBER 2023

- Created a consolidated road reservation list, allowing **thousands** of users to validate if a street name had been reserved and therefore **reducing emergency response confusion** with similar sounding street names
- Provided research findings entailing NENA standards and formats in a report to the NG911 group
- Participated and created a **50 page** infographic summary for a data quality course
- Experimented with **FME** metadata through **FMW Workshop Readers**, consolidating the data in a report

CondoWorks Inc. - *QA / Dev Ops Analyst*
JANUARY 2023 - APRIL 2023

- Validated correct output of automated invoice parser to ensure the fields were filled appropriately
- Proposed new method of QA by using the preview PDF function, saving an estimated **120** hours per year
- Communicated with all stakeholders to ensure client satisfaction with the software product

Russel Wealth Planning Group - *Financial Advisor Assistant*
MAY 2022 - AUGUST 2022

- Implemented an **automated time management system**, increasing daily task meeting speed by **125%**
- Developed **5** retirement financial plans through **NaviPlan**, resulting in clients saving an averaged **$8,000** per year
- Scheduled daily meetings between financial advisors and senior clients, with researched economic topics tailored to each client's specific needs
- Created an automated fillable lifestyle expenditure form used in **100+** client meetings as a decision-making tool, with the goal of making the client's expenses understandable
- Reduced client expenses by an estimated average amount of **2%**

Industry 4.0 Design Team (University of Waterloo) - *Research and Development Lead*
OCTOBER 2021 - PRESENT

- Organized the design team's data analytics recruitment competition, attracting **10%** of the incoming class
- Currently leading the **R&D team** in developing data analysis and optimization workshops
- Learned and reinforced management engineering concepts, such as **supply chain management** and **data analytics**

PROJECTS

Consolidated Road Reservation List

- Through **FME**, compiled values from **6** regional databases into a SQL database
- Performed data cleaning actions and checks (deduplication, null/missing values, etc.)
- Ran test cases with **Agile methodology** on prototype output using **Excel**

London Weather Data Analysis

- Performed analysis using **Python (pandas, Matplotlib)** libraries, with **Jupyter Notebooks**
- Imported the dataset from **Kaggle** of the weather in London, England, for the years 1979-2020
- Visualized the data using **Matplotlib** to support findings

EDUCATION

University of Waterloo - *Candidate for Bachelor of Applied Science in Management Engineering*
SEPTEMBER 2021 - APRIL 2026
Relevant courses: Data Structures & Algorithms (Java), Databases & Software Design (JavaScript, SQL), Optimization I
Extracurriculars: Industry 4.0, WEEF representative, UW Tennis Club member
